#6: [MUSHLUME TRUMPET PENDANT](#) (DANIELLE TROFE DESIGN, \$750)

“There aren't many lighting products in the market that are grown and not manufactured. This organic, biodegradable pendant is a classic example of the work of Danielle Trofe, famous for creating cutting-edge sustainable design. Made with mushroom mycelium and agricultural waste, plus painted with a non-toxic, all natural milk paint by hand, I love how this unique lamp is functional, beautiful, and highly sustainable.”
